

E. Are you considered an expert? (i.e., called upon to do unusual and difficult jobs in the operation of engineering equipment)? No. Go to next item. Yes. If so, explain the types of assignments you have been given.

F. Can you operate engineering equipment under dangerous or difficult conditions? No. Go to next item. Yes. If so, tell what types of equipment and what types of conditions.

II. WORK PRACTICES (INCLUDING ATTACHING AND ADJUSTING EQUIPMENT AND PERFORMING OPERATOR MAINTENANCE).

A. Can you adjust, oil, perform operator maintenance, set up attachments, etc.? No. Go to next item. Yes. Describe what you consider operator maintenance, what types of attachments you have made to engineering equipment, and how you used the equipment and attachments.

B. Tell about your ability to select auxiliary equipment according to the work to be done. Who tells you what equipment to select, how to attach it to the equipment, etc.?

III. ABILITY TO INTERPRET AND FOLLOW INSTRUCTIONS.

A. Tell about your ability to interpret and follow instructions pertaining to engineering equipment operations. How do you receive your work assignments? From Whom? Once you have received the instructions, what do you do? Who inspects your work? When does this inspection take place (i.e., during the work, after you complete the work, not at all, etc.) and for what purpose is your work inspected?

B. Have you ever instructed someone else on how to operate engineering equipment?
 No. Go to next item. Yes. Tell when and whom you instructed and on what type(s) of engineering equipment.

IV. ABILITY TO OPERATE ENGINEERING EQUIPMENT SAFELY.

A. Tell about your experience and training that shows you can operate engineering equipment safely, especially in dangerous or hazardous situations. Describe dangers involved in any work you have done with engineering equipment.

B. What safety training have you had pertaining to engineering equipment operations? How is your safety record (include any safety awards you have received, or any admonishments or reprimands you have received for unsafe operations)?

C. In the last five years have you had any accidents involving engineering equipment?
 No. Go to the next item. Yes. Tell about them.

V. RELIABILITY AND DEPENDABILITY AS AN ENGINEERING EQUIPMENT OPERATOR.

How is your attendance record? Give approximately number of days absent from work (other than scheduled leave) and give reason(s). In the last five years, have you been selected for a special job involving engineering equipment operations. If so describe the job and situation.

VI. ABILITY TO DO THE WORK OF THE POSITION.

Read this general description of the work of an engineering equipment operator. Read each statement below the description and check the one which most nearly describes your ability to do the work of the position described.

Description of Work. Under normal supervision, operates crawler-type tractor with dozer and scraper attachments in channel excavation, leveling, and clearing. Operates motor grader and scarifier in the maintenance of levee roads. Operates mobile crane with clam-shell attachment. Finishes surfaces to specifications. Operates front-end loader. Operates wheel-type industrial tractor with mower and brush cutting attachments. Performs operator maintenance on vehicles operated. Makes minor field repairs and adjustments to equipment and attachments. Makes daily operator reports as required.

- I have not done this type of work.
- I am able to do the simple routine tasks under close supervision.
- I am able to perform most of the tasks, except the following _____
- I am able to do most of the tasks subject to inspection during the work process and when I finish.
- I am able to do all of the work on my own initiative subject to intermittent inspection of my work.
- I am able to do all of the work on my own initiative subject to my inspection when I finish the job.

You may be required to demonstrate claimed skill level.

Where did you acquire this level of ability? _____

TRAINING. List the courses you have taken which would help you in the work of an Engineering Equipment Operator. (Include shop courses, math courses, apprenticeship training, trade school course, military training, correspondence courses, etc.). Show title of training, who gave it, and year completed.

AFTER COMPLETING THIS FORM, carefully review it to make sure you have included information on all items. Also, be sure that any experience or training you have claimed in this form is reflected in your application for the job. All statements made in this form or on your application are subject to verification.

CERTIFICATION

I CERTIFY that all of the statements made in this form are true, complete and correct to the best of my knowledge and belief and are made in good faith.
